Goals and Progress Tracker

Set goals together, then review them often. A few goals the client really cares about beat a long list.

WHY THIS MATTERS

In the client's own words: why do you want this?

SMART GOALS

Specific · Measurable · Attainable · Realistic · Time-bound. Aim for one main goal and up to two supporting goals. **Outcome** = the result you want. **Performance** = a skill or number you can test. **Process** = a habit you control. Pair an outcome goal with a process goal.

Goal 1 (main goal)

Type: ◯ Outcome ◯ Performance ◯ Process

The goal in one sentence

How we'll measure it	Starting point	Target	Target date

What could get in the way

Our plan and first steps

Goal 2 (supporting)

Type: ◯ Outcome ◯ Performance ◯ Process

The goal in one sentence
