G1 CLIMBING + FITNESS · PERSONAL TRAINING

Post-Session Follow-Up

Trainer note first (2 minutes), then a short message to the client.

DRAFT V0.1
Pending G1 management review

Client | Date | Session #

Trainer | Length (min) | OPT phase

FOCUS TODAY

- ☐ Assessment
- ☐ Movement prep
- ☐ Strength
- ☐ Core and stability
- ☐ Cardio
- ☐ Climbing-specific
- ☐ Recovery
- ☐ Other

WHAT WE DID

EXERCISE	SETS X REPS	LOAD / LEVEL	RPE	NOTES AND CUES

HOW IT WENT

Energy before / after (1-5)

Session effort (RPE 0-10)

Soreness check
◯ None ◯ Expected muscle fatigue ◯ Pain flag

If a pain flag: where, when, what happened, what I advised

Wins

Adjust next time

Progress toward goals (update the tracker)

PLACEHOLDER: where session notes are kept and who can see them. Pending G1 policy on client records. Keep health details out of texts and email until it is set.

BETWEEN SESSIONS (two or three simple things, not a second workout plan)

TASK	HOW OFTEN

NEXT SESSION

Day, date, time

Focus

Client should bring

PLACEHOLDER: scheduling, late and cancellation wording, and anything about packages or payment. Pending G1 management approval. Don't quote prices or policies in messages until it is approved.

MESSAGE TO THE CLIENT (edit the [brackets]; keep it warm, short and general)

Send within a few hours. Use plain words; leave health details for in-person conversations.

Hi [first name], thanks for training with me today. We worked on [focus] and you did really well with [one specific win].

Between now and next time:
1. [task] - [how often]
2. [task] - [how often]

Some muscle soreness in [areas] is normal for a day or two. If you notice sharp or worsening pain, numbness, or anything that worries you, skip that exercise, check in with a licensed healthcare professional, and let me know.

Next session: [day, date, time]. Focus: [focus]. Bring [water, shoes, etc.].
Scheduling questions: [placeholder: G1 scheduling wording, pending management approval]

[trainer name], G1 Climbing + Fitness

WRAP-UP

- [ ] Message sent
- [ ] Goals tracker updated
- [ ] 24-48 hour check-in done (soreness, questions)
- [ ] Note saved per G1 process
